

PI6NMS

FINN-POWER PI 6NMS CRIMPING MACHINE FOR SERVICE LINE

## P16NMS – FAST, EASY AND COMPACT

This machine is a new, electric version of Powerco's classic PI 6 series. PI 6NMS is portable crimping machine which is designed for field service and on-site work. This service machine is easy and very comfortable to operate and it makes crimping faster and more efficient. PI 6NMS is highly reliable, simple and straight-forward to use.

This crimping machine is perfectly suitable for crimping smaller parts. PI 6NMS is also space-saving because of its compact size and design. PI 6NMS is also easy to carry from one location to another.
